(54) **OPTICAL RECORDING MEDIUM, METHOD RECORDING OPTICAL RECORDING MEDIUM, AND RECORDER**

(57) In an optical recording medium having a plurality of recording layers on which information can be recorded by irradiating a laser beam from one side thereof, an optimum recording power to each of the recording layers can be determined. The optical recording medium has a

plurality of recording layers on which information can be recorded by irradiating a laser beam from one side thereof, and each of the recording layers has a power calibration area (PCA) (52),(61) for optimizing the intensity of the laser beam.

**FIG. 6(A)**
